Subject:	HYPE201913463-T3 Decision Letter
Email	<p>17-Jul-2019</p> <p>Prof. Gian Paolo Rossi University of Padova Hypertension Clinic, Department of Medicine-DIMED University Hospital Via Giustiniani, 2 Padova 35126 ITALY</p> <p>MS ID#: HYPE201913463-T3 MS TITLE: The Clinical Outcomes of 1625 Patients with Primary Aldosteronism Subtyped With Adrenal Vein Sampling</p> <p>Dear Prof. Rossi:</p> <p>I am pleased to inform you that your Original Article is potentially acceptable for publication in Hypertension providing the following items are addressed:</p> <ul style="list-style-type: none"> - You previously selected the Authorship Responsibility and Copyright Transfer Agreement. Details regarding article accessibility upon publication and publication cost(s) for this option are available at https://www.ahajournals.org/open-access-information . When submitting your revised manuscript please include the following statement in the required Response to Reviewers file, "I confirm selection of Authorship Responsibility and Copyright Transfer Agreement and accept responsibility for all costs associated with this choice." - Abstract must be in journal format (do not use headings). - Double space Novelty and Significance. - For each author, disclose all relevant financial, personal or professional relationships with other people or organizations. To protect the integrity of the author, Journal and the AHA, disclosure must be made of both relationships that pose a conflict and those that could reasonably be perceived as a conflict of interest or as potentially influencing or biasing the author's work. If there are no disclosures, please say NONE. Place it before Sources of Funding. - Text and online supplement - Online supplement figures and tables should be labeled as follows S1, S2, S3, etc. - Please do not highlight the text of the manuscript. - Place keywords after the abstract page. - Figures - the resolution is low (231 ppi) Figures should be supplied at the highest resolution possible: line art at 1200 dpi; everything else including CT scans, radiographs, other halftones, and color images must be at least 600dpi. Also, remove the text: "figure 1, figure 2, ..., figure 5" from each figure. - Graphic abstract - graphic abstracts are meant to be very minimal text and almost completely graphic and visual. The submitted image can only be a single figure panel. Do not include data items; all content should be graphical. - Please upload your supplemental file. Make sure the font size of the text is 12 pt. - The font size for table has to be 12 pt. <p>In addition, all figures must be publication ready prior to final submission. Please refer to</p>

<http://hyper.ahajournals.org/content/figures> for figure requirements.

Please ensure that your manuscript adheres to the AHA Journals' implementation of the Transparency and Openness Promotion (TOP) Guidelines (available online at <http://www.ahajournals.org/content/TOP-guidelines>).

Authorship changes are not allowed post acceptance. If you make any changes in authorship of your manuscript (additions, deletions, change of order) prior to acceptance, you must complete a Change of Authorship Form and have all authors sign agreeing to the change. If your manuscript is accepted, it will not be possible to publish it until all signatures are in place. The form may be downloaded from [Link Not Available](#)

When all listed items are complete please submit your revised manuscript online at [Link Not Available](#) .

Please contact our editorial office if you have questions about the items requested (hypertension@heart.org). We will not be able to submit your manuscript for publication until final materials are received in this editorial office. Also, the date your final materials are received will be published in Hypertension as the acceptance date for your manuscript.

Thanks again for submitting your interesting work to Hypertension. We look forward to receiving future manuscripts from you. With kind regards,

Sincerely,

David A. Calhoun, MD
Guest Editor
University of Alabama at Birmingham
